SRC PENSION PLAN HIGHLIGHTS DECEMBER 31, 2007

Defined Benefit Plan

The surplus in the defined benefit plan was \$42k at December 31, 2007 compared to a surplus of \$278k at December 31, 2006.

- The refund upon termination in 2007 was comparable to the 2006 amount. This is a result of employees retiring or leaving SRC.
- There was a net increase of twenty five (25) members for the defined contribution plan.
- **Rates of Return (pre-fee)** December 31, 2006. The change is attributable to market losses.
- There was a decrease in the defined benefit plan obligation of \$97k from \$2,314k to \$2,217k as a result of Plan experience.

Defined Contribution Plan

Balanced Pension Trust Fund

Canadian Money Market Fund

The two charts above show the gross (pre-fee) rate of return compared to the benchmark rate of return for the Balanced Pension Trust Fund and the Canadian Money Market Fund.

INTRODUCTION

Establishment

The Saskatchewan Research Council Employees' Pension Plan (Plan) was established in accordance with the *Income Tax Act* (Canada), and *The Pension Benefits Act, 1992* (Chapter P-6.001 of the Statutes of Saskatchewan) and the regulations thereunder.

Purpose

The Plan was established for permanent employees on May 1, 1974 for the purpose of providing retirement benefits to Saskatchewan Research Council (SRC) employees.

Structure

Up to and including December 31, 1990, the Plan provided the greater of a defined benefit or a defined contribution entitlement for Members of the Plan. Effective January 1, 1991, the Plan was amended and restated to provide solely a defined contribution benefit to Members. The changes did not affect existing pensioners who will continue to receive benefits as granted.

ORGANIZATION CHART

Roles and Responsibilities

The Plan is administered by SRC. The Board of Directors has delegated the oversight and monitoring of the Plan to the Audit/Finance Committee of the Board. The Board of Directors has charged the President and CEO, in conjunction with SRC management, with overall responsibility for the day-to-day operations of the Plan. These duties include:

- Monitoring of the performance of the investment manager, record keeper, actuaries, legal counsel and any other third party service providers used by the Plan
- Reviewing the Plan's Statement of Investment Policies and Procedures (SIP&P)
- Plan member education
- Plan communication
- Remitting pension contributions for employees in a timely manner
- Maintaining appropriate financial records for the Plan
- Reviewing required or proposed changes to the Plan.

The President and CEO and SRC management provide regular communication and information to the Audit/Finance Committee at each Committee meeting. This assists the Committee with fulfilling their responsibilities for overseeing the Plan.

The Pension Advisory Committee (PAC) promotes awareness and understanding of the Plan, periodically reviews the results of the Plan, and advises SRC and Plan Members with respect to matters of concern to the Members. The PAC is comprised of a maximum of five members, of which one is from SRC's senior management and two to four are appointed by SRC from the list of Plan Members.

PLAN OVERVIEW

The following overview of the Plan is a summary only. For more complete information, reference should be made to the Plan Agreement.

Eligibility

All regular employees (those hired without a fixed term employment agreement) of SRC shall join the Plan on the date of employment. An employee who is employed by SRC on a fixed term employment agreement shall join the Plan on the date on which they have completed 24 months of less than full-time continuous employment with SRC provided they have received earnings of at least 35% of the Year's Maximum Pensionable Earnings (YMPE) as defined under the Canada Pension Plan, in each of the two consecutive calendar years immediately prior to joining the Plan.

Contributions

The employer contributes 4.875% of the Member's Earnings up to the YMPE and 7.5% of the Member's Earnings above the YMPE, on a monthly basis. In any Plan year, a Member is not required nor permitted to make contributions to the Plan.

Withdrawals

Upon application and subject to lock-in provisions, termination refunds are payable when a member ceases to be employed by SRC.

Upon retirement, a transfer is available based on the Member's accumulated balance to:

- another pension plan,
- a Locked-In Retirement Account Contract,
- a Prescribed Registered Retirement Income Fund or
- purchase a life annuity contract.

A member may direct all or any portion of their Plan account to one or any combination of these benefits to provide and protect their retirement income.

In the event of the death of a Member before retirement, the amount in the Member's account at the date of death shall be payable to the Member's Spouse, or to his/her beneficiary if there is no Spouse. The Member's Spouse may elect to purchase an immediate annuity with the Member's account balance, receive a lump sum payment, or transfer the balance to:

- a registered retirement savings plan,
- a deferred life annuity,
- the Spouse's existing registered pension plan, or
- a Locked-In Retirement Account Contract.

Pensioners

Effective January 1, 1991 the defined benefit portion of the Plan was closed. Individuals that were receiving a pension at that time continue to receive defined benefit payments as per the Plan text.

Defined benefit pensioners receive benefit increases effective April 1st of each year based on CPI increases to the extent investment earnings exceed 6% in the previous calendar year. The defined benefit pensioners will not receive an automatic increase for April 1, 2008. The last increase was effective April 1, 2007.

The SRC Board of Directors passed a resolution such that in a year where indexing of pension benefits, as established under the Plan, does not provide for an automatic increase, or where the automatic increase is less than the maximum permitted, the Board will review the status of the Plan and may provide for an ad hoc increase.

INVESTMENT OF FUNDS

SRC is responsible for investing and holding in trust the Plan assets. SRC has retained Phillips, Hager & North Investment Management Ltd. (PH&N) as investment managers. Group Retirement Services, through London Life Investment Management Ltd., has been retained to hold the investments in a segregated fund. As at December 31, 2007, the defined benefit plan is limited to being invested by London Life Investment Management Ltd. in PH&N's Balanced Pension Trust fund and the defined contribution plan is limited to being invested in PH&N's Balanced Pension Trust fund, PH&N's Canadian Money Market fund and a London Life daily cash account.

The investment managers make the day-to-day decisions of whether to buy or sell specific investments in order to meet the long-term objectives of the Plan, as set forth by SRC management and the PAC. SRC management and the PAC review the investment performance of the Plan in terms of the performance of the benchmark portfolio over five-year rolling periods. The long-term investment performance objective for the entire portfolio is to outperform a benchmark portfolio over a five-year period, before management fees. The benchmark return is defined below for the two pension fund investment choices.

As part of the review of the performance of PH&N, consideration is also given to the level of administrative fees that are assessed in comparison to fees charged by other similar funds.

PH&N Canadian Money Market Fund

The benchmark return for this fund is the Dex 30 day T-Bill Index.

The following table compares the fund's annualized gross rate of return to the investment objective return (the return of the benchmark portfolio) as of December 31, 2007.

Period ended December 31, 2007	Benchmark Return	Annualized Gross Return
One-year return	4.27%	4.62%
Three-year return	3.59%	3.77%
Five-year return	3.17%	3.29%

PH&N Balanced Pension Trust Fund

The benchmark return is calculated based on the following indices:

- 35.0% S&P/TSX Capped Composite Index (Toronto Stock Exchange Index),
- 25.0% Morgan Stanley Capital International World Index (ex Canada),
- 35.0% Dex Universe Bond Index,
- 5.0% Dex 30 day T-Bill Index.

The following table compares the fund's annualized gross rate of return to the investment objective return (the return of the benchmark portfolio) as of December 31, 2007.

Period ended December 31, 2007	Benchmark Return	Annualized Gross Return
One-year return	3.02%	0.24%
Three-year return	9.19%	7.41%
Five-year return	10.12%	9.67%

The rates of return are provided by London Life Investment Management Ltd. based on the performance of the segregated funds.

SRC management and the PAC reviewed the annual rates of return with the PH&N representative. The key factor for the fund not outperforming the benchmark return is the under weight in the Technology sector and the continued concentration of the market in the Energy and Materials sector. The market valuation that is concentrated in these sectors has resulted in a skewing of the underlying benchmark components. This is similar to the market concentration issues that arose in the technology sector in 2000 and 2001. In view of these facts, SRC management and the PAC consider the annual rates of return as acceptable for the Plan.

The investment management company is to invest the Plan assets under its control in a diversified portfolio of qualified investments as defined by the *Income Tax Act* (Canada) within the following range of investment discretion:

Type of Investment	% of Portfolio at Market Value	
	Minimum	Maximum
Canadian Equities	30.0%	40.0%
Global Equities	20.0%	50.0%
Bonds	30.0%	40.0%
Cash and Short-term Notes	0.0%	15.0%

INVESTMENT SUMMARY

The Balanced Pension Trust Fund's asset mix by type of investment as of December 31, 2007 is shown in the table below.

Type of Investment	% of Portfolio at Market Value
Canadian Equities	30.4%
Global Equities (consisting of)	25.3%
- US Equities	13.1%
- EAFE Equities *	12.2%
Bonds	33.3%
Cash and Short-term Notes	11.0%
Total Investments	100.0%

* EAFE – Europe, Asia and Far East Equities.

MEMBERSHIP STATUS

Defined Benefit Plan

Of the twenty-one (21) individuals receiving pension payments at December 31, 2007, thirteen (13) are retirees and eight (8) are surviving spouses.

Defined Contribution Plan

Total Membership as at December 31, 2006		281
Add:		
Enrollments during the year		76
Less:		
Termination of membership in the Plan	48	
Retirements	3	
Death	<u>0</u>	
Total exits		<u>(51)</u>
Total Membership as at December 31, 2007		<u>306</u>

ADMINISTRATION OF THE PLAN

The annual operating expenditures associated with the Plan's administration were paid by SRC and were not charged to the Plan during 2007.

FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2007

REPORT OF MANAGEMENT
Year ended December 31, 2007

The accompanying financial statements are the responsibility of the management of the Saskatchewan Research Council. They have been prepared in accordance with Canadian generally accepted accounting principles, using management's best estimates and judgments, where appropriate.

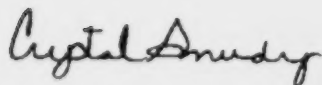

Management is responsible for the reliability and integrity of the financial statements, the notes to the financial statements, and other financial information contained in this report. Management is also responsible for maintaining a system of internal controls, policies and procedures designed to provide reasonable assurance that assets are safeguarded and that accounting systems provide timely, accurate and reliable financial information.

The Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control. The Board is assisted in exercising its responsibilities through the Audit/Finance Committee, which is composed of three non-management directors and one management director. The Committee meets periodically with management to satisfy itself that management's responsibilities are properly discharged, to review the financial statements and to recommend approval of the financial statements to the Board.

The Provincial Auditor of Saskatchewan has audited the Saskatchewan Research Council Employees' Pension Plan financial statements in accordance with Canadian generally accepted auditing standards and his report follows.

Laurier Schramm
President and CEO

Crystal Smudy, CA
Chief Financial Officer

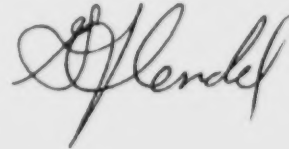

AUDITOR'S REPORT

To the Members of the Legislative Assembly of Saskatchewan

I have audited the statement of net assets available for benefits and accrued pension benefits and surplus of The Saskatchewan Research Council Employees' Pension Plan as at December 31, 2007 and the statements of changes in net assets available for benefits and changes in accrued pension benefits for the year then ended. The Plan's management is responsible for preparing these financial statements for Treasury Board's approval. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the net assets available for benefits and accrued pension benefits and surplus of the Plan as at December 31, 2007 and the changes in the net assets available for benefits and changes in accrued pension benefits for the year then ended in accordance with Canadian generally accepted accounting principles.

A handwritten signature in black ink, appearing to read 'Fred Wendel', with a stylized flourish at the end.

Regina, Saskatchewan
February 14, 2008

Fred Wendel, CMA, CA
Provincial Auditor

THE SASKATCHEWAN RESEARCH COUNCIL EMPLOYEES' PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2007

1. Description of the Plan

The following description of the Plan is a summary only. For more complete information, reference should be made to the Plan Agreement. The Plan is administered by the Saskatchewan Research Council (SRC). The Pension Plan Advisory Committee (PAC) promotes awareness and understanding of the Plan, periodically reviews the results of the Plan, and discusses with SRC and Plan Members matters of concern to the Members. The PAC is comprised of a maximum of five members, of which one is from the SRC's senior management and two to four are appointed by SRC from the list of Plan Members.

(a) General

The Saskatchewan Research Council Employees' Pension Plan was established May 1, 1974 for the purpose of providing retirement income to SRC's employees. Up to and including December 31, 1990, the Plan provided the greater of a defined benefit or a defined contribution entitlement for Members of the Plan. Effective January 1, 1991, the Plan was amended and restated to provide solely a defined contribution benefit to Members. The changes did not affect existing pensioners who will continue to receive benefits as granted.

(b) Funding Policy

The employer contributes 4.875% of the Member's Earnings up to the Year's Maximum Pensionable Earnings (YMPE) and 7.5% of the Member's Earnings above the YMPE, as defined under the Canada Pension Plan, on a monthly basis. Under the terms of the Plan, members are neither required nor permitted to make contributions to the Plan.

(c) Retirement

Upon retirement, a transfer is available based on the Member's accumulated balance to another pension plan, a Locked-In Retirement Account Contract, a Prescribed Registered Retirement Income Fund or to purchase a life annuity contract.

(d) Termination Refunds

Upon application and subject to lock-in provisions, termination refunds are payable when a member ceases to be employed by SRC.

THE SASKATCHEWAN RESEARCH COUNCIL EMPLOYEES' PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2007

1. Description of the Plan (continued)

(e) Defined Benefit Pensioners

Pensioners receive benefit increases effective April 1st of each year based on CPI increases to the extent investment earnings exceed 6% in the previous calendar year. Based on the Plan rate of return, the pensioners will not receive an increase on April 1, 2008. The last increase was effective April 1, 2007.

The SRC Board of Directors passed a resolution, such that in a year where indexing of pension benefits, as established under the Plan, does not provide for an automatic increase, or where the automatic increase is less than the maximum permitted, the Board will review the status of the pension plan and may provide for an ad hoc increase.

2. Summary of Accounting Policies

The financial statements are prepared in accordance with Canadian generally accepted accounting principles. These principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates. Differences are reflected in current operations when identified. The following principles are considered to be significant:

(a) Basis of Accounting

These financial statements are prepared using the accrual basis of accounting.

(b) Investments

Units in the segregated fund are recorded in the accounts at their net asset value per unit. Net asset value per unit is the market value of the investments in the segregated fund's portfolio divided by the total number of outstanding units in that fund. The adjustments necessary to record units at their net asset value at the year end are shown as an increase or decrease in net assets available for benefits.

Additional units are acquired when distributions are made by the fund. Cash dividends are not paid by the fund, however, investors can realize changes in the underlying unit values by redeeming units.

THE SASKATCHEWAN RESEARCH COUNCIL EMPLOYEES' PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2007

3. Segregated Fund

The investments are held in a segregated fund held by London Life Investment Management Ltd. The segregated fund holds the underlying Phillips, Hager & North funds on behalf of members.

The investment objectives of the Plan are to ensure that the Plan has sufficient assets to meet future pension obligations and to generate sufficient cash flow to meet pension payments. The strategy employed to achieve these objectives is to invest cash flows from contributions into assets such as a segregated fund.

The value of the Plan's assets is affected by short-term changes in nominal interest rates and equity markets.

Credit risk arises from the potential for an issuer to default on its contractual obligations to the Plan. The Plan limits credit risk by dealing with issuers that are considered to be high quality.

The investment is comprised of London Life Investment Management Ltd. units of a segregated fund that holds units of Phillips, Hager & North Balanced Pension Trust Fund. The Balanced Pension Trust Fund has no fixed interest rate, and its returns are based on the performance of the fund. The fair value of the investment is considered to be the market value, the calculation of which is described in Note 2.

4. Obligations for Pension Benefits

The present value of the defined benefit obligation was determined using the projected benefits method prorated on service and the administrator's best estimate assumptions. Aon Consulting Inc. performed an actuarial valuation as at December 31, 2007 and as at December 31, 2006.

The pension obligation is based on a number of assumptions about future events including: interest rate, mortality and inflation. Actual rates may vary significantly from the long-term assumptions used.

Investment earnings in excess of 6% will be applied to provide increases to all defined benefit pensioners in receipt of benefits, which are paid from the pension fund. Therefore, the significant long-term assumption used in determining the actuarial value of accrued pension benefits was:

Interest rate 6%.

THE SASKATCHEWAN RESEARCH COUNCIL EMPLOYEES' PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2007

4. Obligations for Pension Benefits (continued)

Upon termination of the defined benefit portion of the Plan, any balance remaining, after discharging all liabilities, shall belong to SRC. The balance may be distributed in a manner to be determined by SRC, at its sole discretion, after receiving prior approval in accordance with *The Pension Benefits Act, 1992*, the *Income Tax Act (Canada)* and the regulations thereunder.

The pension obligation is long term in nature. The Plan has no intention of settling its pension obligation in the near term and there is no market for settling pension obligations. Therefore, determination of the fair value of the pension liability is not practicable.

5. Experience Losses

The experience losses in both 2007 and 2006 are the result of the Plan experiencing lower mortality rates during the year than those projected by the mortality table used by the actuary.

6. Investment Performance

The investment manager makes day-to-day decisions on whether to buy or sell investments in order to achieve the long-term performance objectives set by SRC and the PAC. SRC and the PAC review the investment performance of the Plan in terms of the performance of the benchmark portfolio over 5 year rolling periods. The long-term investment performance objective for the entire portfolio is to outperform a benchmark portfolio. Results for the year ended December 31, 2007 compared to the benchmark are as follows:

Period ended December 31, 2007	Benchmark Return	Annualized Gross Return
One year return	3.02%	0.24%
Three year return	9.19%	7.41%
Five year return	10.12%	9.67%

The one, three and five year rate of returns are provided by London Life Investment Management Ltd. based on the performance of the segregated funds.

7. Related Party Transactions

SRC provides general administrative services without charge.

THE SASKATCHEWAN RESEARCH COUNCIL EMPLOYEES' PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2007

8. Administration

Administration costs may be paid out of the Plan assets as provided for in the Plan text. Since the Plan was in a deficit position at January 1, 2003, the Board of Directors concurred with management's recommendation that SRC would not be reimbursed for administration costs until such time as a sufficient surplus exists. No administration costs were reimbursed in 2007 (2006 - \$0).
